To the Congress of the United States:

As required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c), and section 204(c) of the International Emergency Economic Powers Act (IEEPA), 50 U.S.C. 1703(c), I transmit herewith a 6-month periodic report on the national emergency with respect to Sudan that was declared in Executive Order 13067 of November 3, 1997, based upon information made available to me.

GEORGE W. BUSH.

THE WHITE HOUSE, *October 31, 2001.*

PRESIDENT'S PERIODIC REPORT ON THE NATIONAL EMERGENCY WITH
RESPECT TO SUDAN

I hereby report to the Congress on developments over the course of the past 6 months concerning the national emergency with respect to Sudan that was declared in Executive Order 13067 of November 3, 1997. This report is submitted pursuant to section 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(c) ("IEEPA"), and section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c) and based upon information duly provided.

1. In light of the recent passage of the Trade Sanctions Reform and Export Enhancement Act of 2000, Title IX of Public Law 106-387 (October 28, 2000) (the "TSRA"), conforming amendments were promulgated to the Sudanese Sanctions Regulations, 31 CFR Part 538 (the "Regulations") (66 FR 36683, July 12, 2001). The TSRA requires the President to terminate unilateral sanctions on the exportation of most agricultural commodities, medicine, and medical devices and imposes the requirement, with certain exceptions, that exports of such products to the governments of countries, such as Sudan, designated by the Secretary of State to have repeatedly provided support for acts of international terrorism, and any other entity within such countries, only be made available pursuant to 1-year licenses. The TSRA requires that procedures be put in place to deny licenses for exports to any entity in such country promoting international terrorism. A copy of the conforming amendments is attached to this report.

2. The Department of the Treasury's Office of Foreign Assets Control ("OFAC") has issued 44 licenses during the current reporting period. The majority of licenses were issued releasing blocked funds after it was determined that there was no Sudanese Government property interest in the funds.

Thirteen licenses were issued authorizing commercial sales and exportation to Sudan of bulk agricultural commodities, food and agricultural products, medicine, and medical equipment. Three licenses were issued authorizing various payments or services, including the settlement payment of a life insurance policy to the designated Sudanese individual beneficiary, the payment of dues to an international organization and transactions associated with the shipment of human remains from the United States to Sudan. Another license was issued authorizing legal representation and payment of legal fees. Forty-five license applications were denied, including 28 applications involving blocked funds that, after review, were determined to involve a Sudanese Government property interest. The remainder of the denials involved commercial goods or services.

3. Since the inception of the program, 126 entities have been designated by OFAC as being owned or controlled by the Government of Sudan, including 12 financial institutions. As of September 10,

2001, 38 transactions totaling more than \$437,000 had been blocked during this reporting period. Under the Regulations, transactions in violation of the sanctions where there is no blockable interest of the Government of Sudan must be returned to remitters ("rejected"). During the reporting period, 235 such transactions were rejected by U.S. banks causing a disruption of more than \$20 million in business for Sudan.

4. Since my last report, OFAC has collected seven civil monetary penalties totaling nearly \$19,500 for violations of IEEPA and the Regulations from four U.S. financial institutions, two carriers and one company. An additional 42 cases are undergoing penalty action for violation of the Regulations and IEEPA. OFAC, in cooperation with the U.S. Customs Service, is closely monitoring potential violations of the prohibitions of the Regulations by businesses and individuals. Various reports of violations are being aggressively pursued.

5. The expenses incurred by the Federal Government in the 6-month period from May 3, 2001, through November 2, 2001, that are directly attributable to the exercise of powers and authorities conferred by the declaration of a national emergency with respect to Sudan are reported to be approximately \$260,000, most of which represent wage and salary costs for Federal personnel. Personnel costs were largely centered in the Department of the Treasury (particularly in the Office of Foreign Assets Control, the U.S. Customs Service, the Office of the Under Secretary for Enforcement, and the Office of the General Counsel), the Department of State (particularly the Bureaus of Economic and Business Affairs, African Affairs, Near Eastern Affairs, Consular Affairs, and the Office of the Legal Adviser), and the Department of Commerce (the Bureau of Export Administration and the General Counsel's Office).

6. The situation in Sudan continues to present an extraordinary and unusual threat to the national security and foreign policy of the United States. The declaration of the national emergency with respect to Sudan contained in Executive Order 13067 underscores the United States Government's opposition to the actions and policies of the Government of Sudan, particularly its support of international terrorism and its failure to respect basic human rights, including its restrictions on religious freedom. The prohibitions contained in Executive Order 13067 advance important objectives in promoting the anti-terrorism and human rights policies of the United States. I shall exercise the powers at my disposal to deal with these problems and will continue to report periodically to the Congress on significant developments.

PART 772—[AMENDED]

16. Section 772.1 is amended by adding the definitions of "agricultural commodities", "medical devices", and "medicines" in alphabetical order, to read as follows:

§ 772.1 Definitions of terms as used in the Export Administration Regulations (EAR).

* * * * *

Agricultural commodities.

Agricultural commodities include food (including processed food); feed; fish; shellfish and fish products; beer, wine and spirits; livestock; fiber including cotton, wool and other fibers; tobacco and tobacco products; wood and wood products; seeds; fertilizer and organic fertilizer; reproductive materials such as fertilized eggs, embryos and semen. For the purposes of the EAR, agricultural commodities do not include furniture made from wood; clothing manufactured from plant or animal materials; agricultural equipment (whether hand tools or motorized equipment); pesticides, insecticides, or herbicides; or cosmetics (unless derived entirely from plant materials).

Note 1: This definition of agricultural commodities includes fertilizer and organic fertilizer, as listed in section 775 of the 2001 Agriculture, Rural Development, Food and

Drug Administration, and Related Agencies Appropriations Act (Act) (Public Law 106-387) and commodities listed in section 102 of the Agricultural Trade Act of 1978 (7 U.S.C. 5602) as incorporated in section 902 of the Act, as well as commodities determined by the Department of Agriculture to fall within the scope of section 102 of the 1978 Agricultural Trade Act.

Note 2: For purposes of License Exception AGR (see § 746.18 of the EAR), agricultural commodities also include vitamins, minerals, food additives and dietary supplements, and bottled water. These items do not fall within the scope of section 102 of the 1978 Agricultural Trade Act, but are treated as agricultural commodities for the purposes of License Exception AGR.

Note 3: For purposes of License Exception AGR and export license applications to Iran, Sudan and Libya under the licensing procedures set forth in the appropriate regulations promulgated and administered by Treasury's Office of Foreign Assets Control, agricultural commodities only include those that are classified as EAR99.

* * * * *

Medical devices. For purposes of the EAR, medical devices are "devices" as defined in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) including medical supplies, instruments, equipment, equipped ambulances, institutional washing machines for sterilization, and vehicles with medical testing equipment. Note that certain component parts and spares to be exported for incorporation into medical devices are on the Commerce Control List. Only items meeting the definition of "medical device" and that are classified as EAR99 are eligible for export to Iran, Libya and Sudan under the licensing procedures set forth in the appropriate regulations promulgated and administered by Treasury's Office of Foreign Assets Control.

Medicines. Medicines means "drug" as defined in section 201 of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 321). For purposes of the EAR, medicines includes prescription and over the counter medicines for humans and animals. Note that certain medicines, such as vaccines and immunotoxins, are on the Commerce Control List. Only items meeting the definition of "medicine" and that are classified as EAR99 are eligible for export to Iran, Libya and Sudan under the licensing procedures set forth in the appropriate regulations promulgated and administered by Treasury's Office of Foreign Assets Control.

1C997 Ammonium Nitrate, Including Fertilizers and Fertilizer Blends Containing More Than 15% by Weight Ammonium Nitrate, Except Liquid Fertilizers (Containing Any Amount of Ammonium Nitrate) or Dry Fertilizers Containing Less Than 15% by Weight Ammonium Nitrate

Background

The Trade Sanctions Reform and Export Enhancement Act of 2000, Title IX of Public Law 106-387 (October 26, 2000) (the "TSRA"), provides that the President shall terminate any unilateral agricultural sanction or unilateral medical sanction in effect as of the date

of enactment of the TSRA. The TSRA does not direct the termination of any unilateral agricultural sanction or unilateral medical sanction that prohibits, restricts, or conditions the provision or use of any agricultural commodity, medicine, or medical device that is controlled on the United States Munitions List, controlled on any control list established by the Export Administration Act of 1979 or any successor statute, or used to facilitate the development or production of chemical or biological weapons or weapons of mass destruction. Exporters should consult the Department of Commerce, Bureau of Export Administration ("BXA"), to determine whether a particular item is controlled under specific Export Commodity Control Number ("ECCN") on the Commerce Control List in the Export Administration Regulations, 15 CFR part 774, supplement no. 1 (the "CCL").

Section 906 of the TSRA further requires that the export of agricultural commodities, medicine, or medical devices to Cuba or to the government of a country that has been determined by the Secretary of State, under Section 620A of the Foreign Assistance Act of 1961 (22 U.S.C. 2371), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. app. 2405(j)(1)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)), to have provided support repeatedly for acts of international terrorism, or to any other entity in such a country, shall only be made pursuant to one-year licenses issued by the United States Government. The governments of Cuba, Sudan, Libya, and Iran have been designated as supporting international terrorism pursuant to section 6(j) of the Export Administration Act of 1979.

These regulations amend the Cuban Assets Control Regulations, 31 CFR part 515 ("CACR"), the Sudanese Sanctions Regulations, 31 CFR part 538 (the "SSR"), the Libyan Sanctions Regulations, 31 CFR part 550 (the "LSR"), and the Iranian Transactions Regulations, 31 CFR part 560 (the "ITR"), to implement the TSRA as required. The Department of Treasury's Office of Foreign Assets Control ("OFAC") has endeavored to implement the TSRA in a way that is consistent with both the statutory language and the intent of its drafters and in a manner that also provides exporters with an efficient and expedited process for engaging in authorized exports of agricultural commodities, medicine, and medical devices. Following this approach, OFAC is applying the licensing procedures required by section 906 of the TSRA to all exports and

reexports of agricultural commodities, medicine, and medical devices to Sudan, Libya, and Iran that are within the current scope of OFAC's licensing jurisdiction. Similarly, OFAC is applying this licensing procedure to cover exports to the governments of Sudan, Libya, and Iran, any entities in these countries, and individuals in these countries, as well as to persons in third countries purchasing specifically for resale to any of the foregoing.

Cuban Assets Control Regulations. This rule implements the TSRA with respect to the Cuban Assets Control Regulations, 31 CFR part 515 (the "CACR"), in the following ways:

With respect to exports from the United States to Cuba, § 515.533 of the CACR already provides a general license for transactions incident to exportations that are licensed or otherwise authorized by the Department of Commerce. As was the case prior to enactment of the TSRA, exporters seeking to export items from the United States to Cuba should seek authorization from the Commerce Department, which is also amending its regulations to implement the TSRA.

OFAC is amending § 515.533 to clarify that reexports of U.S.-origin items by persons subject to U.S. jurisdiction are also covered by this general license. Thus, overseas persons subject to U.S. jurisdiction that wish to reexport U.S.-origin items to Cuba are authorized to do so provided the reexport is licensed or otherwise authorized by the Commerce Department.

OFAC is also amending § 515.533 to clarify the general restrictions on financing sales of licensed items to Cuba and to implement the special financing restrictions with respect to licensed agricultural sales to Cuba contained in Section 903(b) of the TSRA. The new language slightly expands the payment and financing terms that may be used in agricultural sales to Cuba from those that previously existed.

Although § 515.207 of the CACR prohibits the entry into U.S. ports by vessels engaged in Cuban commerce, § 515.550 already provides a waiver for those vessels engaged in trade with Cuba that is licensed or otherwise exempt. Thus, vessels carrying exports or reexports of agricultural commodities, medicine, or medical supplies that have been licensed or otherwise authorized by the Commerce Department will be permitted to enter U.S. ports, provided they have not carried unlicensed and non-exempt cargo or persons to or from Cuba and provided they are not currently carrying unauthorized goods in which Cuba or a

Cuban national has an interest. A short note referencing this waiver is added to the end of § 515.207, which contains the prohibition on vessel entry.

Section 1706(a)(1) of the Cuban Democracy Act of 1992, 106 Stat. 2575, prohibits the issuance of licenses authorizing U.S.-owned or controlled foreign firms to engage in transactions related to the exportation to Cuba of commodities produced outside of the United States. OFAC is amending the Note to § 515.559 to make clear that U.S.-owned or controlled foreign firms may, however, be authorized to engage in the reexport of U.S.-origin items to Cuba pursuant to § 515.533. Otherwise, the provisions of § 515.559 remain unchanged.

With respect to section 910(a) of the TSRA, which authorizes Cuba travel-related transactions regarding the commercial sale of agricultural commodities, § 515.533(e) of the CACR already states that specific licenses may be issued on a case-by-case basis authorizing Cuba travel-related transactions directly incident to marketing, sales negotiation, accompanied delivery, and servicing of exports and reexports that appear consistent with the export and reexport licensing policy of the Commerce Department. A prospective exporter does not need to obtain a license from the Commerce Department before applying for such a travel license provided that the proposed exports or reexports clearly fit within current Commerce licensing policy. Section 515.560(b) of the CACR is amended to implement section 910(b) of the TSRA.

Sudanese Sanctions Regulations ("SSR"), Libyan Sanctions Regulations ("LSR"), Iranian Transaction Regulations ("ITR"). With respect to the SSR, LSR, and ITR, this rule is intended to establish an expedited process for the issuance of the one-year license required by section 906 of the TSRA. This rule also is intended to clarify the agricultural commodities, medical devices, and medicines covered by the new licensing provisions in these regulations. The Department of Treasury's Office of Foreign Assets Control ("OFAC") will put in place expedited procedures to respond to requests for licenses to export agricultural commodities, medicine, and medical devices to Sudan, Libya, and Iran. Exporters of all fertilizers, live horses, western red cedar, and medical devices require commodity classification from the Department of Commerce, Bureau of Export Administration ("BXA") certifying that the product is EAR 99 included with the exporter's license request to OFAC. See,

15 CFR 748.3 for instructions for submitting commodity classifications. However, BXA will publish on its website at www.bxa.doc.gov/Regulations/TradeSanctionsReformExportEnhancementAct.html a list of medical supplies, such as syringes, bandages, gauze and similar items, that *do not* require BXA commodity classification prior to submitting a license application to OFAC. When submitting a license request to OFAC under its expedited review procedures, exporters must indicate to OFAC that their medical supply is on the BXA medical supply list on BXA's website. Otherwise, exporters must provide OFAC with a copy of the BXA commodity classification for those medical devices that BXA has classified as EAR99. BXA's website will also include a list of medicines that are not EAR 99 and, therefore, not eligible for exportation under these rules.

The expedited process will include, when appropriate, referral of the one-year license request to other government agencies for guidance in evaluating the request. If no government agency raises an objection to or concern with the application within nine business days from the date of any such referral, OFAC will issue the one-year license, provided that the request otherwise meets the requirements set forth in this rule. If any government agency raises an objection to the request within nine business days from the date of referral, OFAC will deny the request for the one-year license. If any government agency raises a concern short of an objection with the request within nine business days from the date of referral, OFAC will delay its response to the license request for no more than thirty additional days to allow for further review of the request.

The TSRA defines *agricultural commodities* by reference to the meaning given to that term in section 102 of the Agricultural Trade Act of 1978 (7 U.S.C. 5602). This definition includes food commodities, feed, fish, shellfish and fish products, beer, wine and spirits, soft drinks, livestock, fiber, including cotton, wool, and other fibers, tobacco and tobacco products, wood and wood products (including lumber and utility poles), seeds, and reproductive materials such as fertilized eggs, embryos, and semen. It also includes certain fertilizers and organic fertilizers that are not otherwise controlled. The term *agricultural commodities* does not include furniture made from wood, clothing manufactured from plant or animal materials, agricultural equipment (whether hand tools or motorized

equipment), pesticides, insecticides, herbicides, or cosmetics (unless derived entirely from plant materials). Exporters may consult the Department of Agriculture website at <http://www.fas.usda.gov> for assistance in determining whether a particular item meets the definition of *agricultural commodities* under the Agricultural Trade Act. Although the definition of *agricultural commodities* under the TSRA does not include vitamins and minerals, food additives or supplements, or bottled drinking water, OFAC will include such items in the definition of *agricultural commodities* for the purposes of this rule. An Official Commodity Classification of EAR 99 obtained from BXA is required to be submitted with the exporter's request to OFAC for a one-year license to export to Sudan, Libya, or Iran fertilizers, live horses, or western red cedar. An Official Commodity Classification from BXA is *not* required to be submitted with the exporter's request for a one-year license to export to Sudan, Libya, or Iran any other agricultural commodity. See, 15 CFR 745.3 for instructions for obtaining an Official Commodity Classification of EAR 99 from BXA.

The TSRA defines the terms *medicine* and *medical device* by adopting the definitions of drug and device set forth in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321). These definitions include prescription medicines and over-the-counter medicines for humans and animals that are classified as EAR 99. They also include medical supplies, instruments, equipment, and equipped ambulances that are so classified. They do not include general-purpose furniture and equipment (such as desks, tables, lamps, and office computers) used in medical offices and waiting rooms. Exporters may consult with the Food and Drug Administration for assistance in determining whether a particular item meets the definition of drug or device under the Federal Food, Drug, and Cosmetic Act. Although most medicines and medical devices are classified under the Export Administration Regulations, 15 CFR part 774, as EAR 99, certain vaccines, biological and chemical products, medical devices and parts for such devices are listed on the CCL and are not eligible for export under this rule. Exporters must have an Official Commodity Classification of EAR 99 from BXA for all medical devices (including supplies) prior to submitting a license request to OFAC, unless the item is specifically listed on BXA's website at www.bxa.doc.gov/Regulations/TradeSanctionsReform

Export Enhancement Act. This list identifies those medical supplies, such as syringes, bandages, gauze and similar items, that *do not* require BXA classification prior to submitting a license application to OFAC. When submitting a license request to OFAC under its expedited review procedures, exporters must indicate to OFAC that their medical supply is listed on the BXA medical supply list on BXA's website. Otherwise, exporters must provide OFAC with a copy of the BXA Official Commodity Classification of EAR 99 for those medical devices not listed on the BXA website. See, 15 CFR 745.3 for instructions for obtaining Official Commodity Classification of EAR 99 from BXA.

In addition, BXA has identified on its website a list of medicines that are on the CCL and not eligible for OFAC's expedited review procedures. When submitting a license application to OFAC under its expedited review procedures, exporters must indicate to OFAC that their medicine is not on the BXA medicine list on BXA's website, in other words, that it is classified as EAR 99. If exporters are unsure of whether their medicine is on the CCL, they should seek an Official Commodity Classification from BXA confirming that their medicine is classified as EAR 99 prior to submitting a license request to OFAC under its expedited review procedures. See, 15 CFR 745.3 for instructions for obtaining Official Commodity Classification of EAR 99 from BXA.

Sections 538.523, 550.569, and 560.530 set forth procedures and requirements for requesting and obtaining these one-year licenses. Incomplete requests will be returned to the requester without action and without prejudice.

These amendments to the SSR, LSR, and ITR also grant by general license the authority for sellers to respond to public tenders on an executory basis, negotiate and sign executory contracts, and make necessary shipping and financing arrangements, not otherwise specifically prohibited by Chapter V of 31 CFR, for the exportation to Libya and the exportation or reexportation to Sudan and Iran of agricultural commodities, medicine, and medical devices. Before the actual exportation to Libya or exportation or reexportation to Sudan or Iran takes place, prospective exporters must obtain a one-year license issued by the Department of the Treasury upon a determination that such exports are covered by the TSRA and are not exports to any entity within Sudan, Libya, or Iran promoting international terrorism.

Specific licenses issued prior to the effective date of this rule authorizing the performance of executory contracts for the sale of agricultural commodities, medicine, or medical equipment shall remain in effect until the expiration date specified in the license or the first anniversary of the effective date of this rule, whichever comes first. However, after the effective date of this rule, new contracts for the exportation of agricultural commodities, medicine, or medical devices may be entered into only pursuant to the terms of, and as authorized by, this new rule.

Specific licenses issued prior to the effective date of this rule authorizing the sale and exportation or reexportation of bulk agricultural commodities listed in Appendix A to 31 CFR parts 538 and 550 and Appendix B to 31 CFR part 560 shall remain in effect solely to permit completion of performance of contracts already entered into prior to the effective date of this rule pursuant to the license. As of the effective date of this rule, new contracts for the exportation of bulk agricultural commodities may be entered into only pursuant to the terms of, and as authorized by, this new rule.

Nothing in this rule, however, affects prohibitions on the exportation of any agricultural commodity, medicine, or medical device listed on the CCL. Moreover, nothing in this rule affects prohibitions on the sale or supply of U.S. equipment, technology, or software used to manufacture agricultural commodities, medicine, or medical devices, such as technology to design or produce biotechnological items or medical devices. This rule does not affect U.S. nonproliferation export controls, including end-user and end-use controls maintained under the Enhanced Proliferation Control Initiative.

This rule amends the SSR, LSR, and ITR in the following ways:

The amendments to §§ 538.523, 550.569, and 560.530 of these regulations implement section 906 of the Act by amending current sanctions against Sudan, Libya, and Iran to require that all exports of covered agricultural products, medicine, and medical devices to the governments of these countries or any entities in these countries be authorized by one-year licenses issued by the Department of the Treasury. These one-year licenses will authorize the exporter to engage in the exportation or reexportation of the licensed products for up to one year from the date of signing of any contract that is entered into during the one-year period of the license.

The amendments to §§ 538.523, 550.569, and 560.530 of these

regulations further implement section 906 of the Act by providing exporters a general license to engage in certain transactions relating to the sale and exportation of covered items to Sudan, Libya, or Iran prior to obtaining the one-year license, such as responding to public tenders on an executory basis, negotiating and signing executory contracts or other agreements capable of acceptance, making shipping arrangements, obtaining insurance, and arranging financing, to the extent not otherwise prohibited by Chapter V of 31 CFR. The one-year licenses will also authorize the performance of executory contracts entered into pursuant to the general license. The amendments specify that any executory contracts entered into prior to obtaining the one-year license will be deemed to have been entered into on the date the one-year license is issued for the purpose of determining the beginning of the 12-month period during which exports may be shipped.

The amendments to §§ 538.523, 550.569, and 560.530 of these regulations also implement section 906 of the Act by providing procedures for requesting, and for the issuance of, the one-year licenses.

Sections 538.526, 550.572, and 560.533 are amended to extend the general license for U.S. persons to broker sales of bulk agricultural commodities by U.S. persons to include the provision of brokerage services on behalf of U.S. persons for sales of all agricultural commodities, medicines, and medical devices as defined by §§ 538.523, 550.569, and 560.530.

Clarifying amendments are made to §§ 538.205, 538.211, 538.405, 550.306, 550.318, 550.405, and 560.405.

Because the Regulations involve a foreign affairs function, the provisions of Executive Order 12866 and the Administrative Procedure Act (5 U.S.C. 553) (the "APA") requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date, are inapplicable.

However, because of the importance of the issues raised by these regulations, this rule is issued in interim form and comments will be considered in the development of final regulations.

Accordingly, the Department encourages interested persons who wish to comment to do so at the earliest possible time to permit the fullest consideration of their views.

The period for submission of comments will close September 10, 2001. The Department will consider all comments received before the close of the comment period in developing final regulations. Comments received after

the end of the comment period will be considered if possible, but their consideration cannot be assured. The Department will not accept public comments accompanied by a request that a part or all of the submission be treated confidentially because of its business proprietary nature or for any other reason, and it will return such submission to the originator without considering them in the development of final regulations. In the interest of accuracy and completeness, the Department requires comments in written form.

All public comments on these regulations will be a matter of public record. Copies of the public record concerning these regulations will be made available, not sooner than October 10, 2001 and may be obtained from OFAC's website (<http://www.treas.gov/ofac>). If that service is unavailable, written requests for copies may be sent to: Office of Foreign Assets Control, U.S. Department of the Treasury, 1500 Pennsylvania Ave., NW Washington, DC 20220, Attn: Merete Evans.

Because no notice of proposed rulemaking is required for this rule, the Regulatory Flexibility Act (5 U.S.C. 601-612) does not apply.

5. Revise § 538.523 to read as follows:

§ 538.523 Commercial sales, exportation, and reexportation of agricultural commodities, medicine, and medical devices.

(a) *One-year license requirement.* The exportation or reexportation of agricultural commodities (including bulk agricultural commodities listed in appendix A to this part 538), medicine, or medical devices to the Government of Sudan, any entity in Sudan, individuals in Sudan, or persons in third countries purchasing specifically for resale to any of the foregoing, shall only be made pursuant to a one-year license issued by the U.S. Department of the Treasury, Office of Foreign Assets Control, for contracts entered into during the one-year period of the license and shipped within the 12-month period beginning on the date of the signing of the contract. No license will be granted for the exportation or reexportation of agricultural commodities, medicine, or medical equipment to any entity or individual in Sudan promoting international terrorism. Executory contracts entered into pursuant to paragraph (b)(2) of this section prior to the issuance of the one-year license described in this paragraph shall be deemed to have been signed on the date of issuance of that one-year license (and, therefore, the exporter is authorized to make shipments under that contract within the 12-month period beginning on the date of issuance of the one-year license).

(b) *General license for arrangement of exportation or reexportation of covered products.*

(1) The making of shipping arrangements, cargo inspection, obtaining of insurance, and arrangement of financing (consistent with § 538.525) for the exportation or reexportation of agricultural commodities, medicine, or medical devices to the Government of Sudan, entities in Sudan, individuals in Sudan, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized.

(2) If desired, entry into executory contracts (including executory pro-

forma invoices, agreements in principle, or executory offers capable of acceptance such as bids in response to public tenders) for the exportation or reexportation of agricultural commodities, medicine, and medical devices to the Government of Sudan, entities in Sudan, individuals in Sudan, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized, provided that performance of an executory contract is expressly made contingent upon the prior issuance of the one-year license described in paragraph (a) of this section.

(c) *Instructions for obtaining one-year licenses.* In order to obtain the one-year license described in paragraph (a), the exporter must provide to the Office of Foreign Assets Control:

(1) The applicant's full legal name (if the applicant is a business entity, the state or jurisdiction of incorporation and principal place of business).

(2) The applicant's mailing and street address (so that OFAC may reach a responsible point of contact, the applicant should also include the name of the individual(s) responsible for the application and related commercial transactions along with their telephone and fax numbers and, if available, email addresses).

(3) The names, mailing addresses, and, if available, fax and telephone numbers of all parties with an interest in the transaction. If the goods are being exported or reexported to a purchasing agent in Sudan, the exporter must identify the agent's principals at the wholesale level for whom the purchase is being made. If the goods are being exported or reexported to an individual, the exporter must identify any organizations or entities with which the individual is affiliated that have an interest in the transaction.

(4) A description of all items to be exported or reexported pursuant to the requested one-year license, including a statement that the item is classified as EAR 99, and, if necessary, documentation sufficient to verify that the items to be exported or reexported are classified as EAR 99 and do not fall within any of the limitations contained in paragraph (d) of this section.

(5) An Official Commodity Classification of EAR 99 issued by the Department of Commerce, Bureau of Export Administration ("BXA"), certifying that the product is EAR 99 is required to be submitted to OFAC with the request for a license authorizing the exportation or reexportation of all fertilizers, live horses, western red cedar, and medical devices other than basic medical supplies, such as

syringes, bandages, gauze and similar items, that are specifically listed on BXA's website, www.bxa.doc.gov/Regulations/TradeSanctionsReformExportEnhancementAct.html. Medical supplies that are specifically listed on BXA's website do not require an Official Commodity Classification of EAR 99 from BXA. BXA will also provide a list on its website of medicines that are ineligible for a one-year license under these procedures. If an exporter is uncertain whether the medicine to be exported is eligible, they should seek an Official Commodity Classification of EAR 99 from BXA and submit a copy to OFAC. See, 15 CFR 745.3 for instructions for obtaining Official Commodity Classification of EAR 99 from BXA.

(d) *Limitations.*

(1) Nothing in this section or in any license issued pursuant to paragraph (a) of this section relieves the exporter from compliance with the export license application requirements of another Federal agency.

(2) Nothing in this section or in any license issued pursuant to paragraph (a) of this section authorizes the exportation or reexportation of any agricultural commodity, medicine, or medical device controlled on the United States Munitions List established under section 38 of the Arms Export Control Act (22 U.S.C. 2778); controlled on any control list established under the Export Administration Act of 1979 or any successor statute (50 U.S.C. App. 2401 et seq.); or used to facilitate the development or production of a chemical or biological weapon or weapon of mass destruction.

(3) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects prohibitions on the sale or supply of U.S. technology or software used to manufacture agricultural commodities, medicine, or medical devices, such as technology to design or produce biotechnological items or medical devices.

(4) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects U.S. nonproliferation export controls, including end-user and end-use controls maintained under the Enhanced Proliferation Control Initiative.

(5) This section does not apply to any transaction or dealing involving property blocked pursuant to this chapter or to any other activity prohibited by this chapter that is not otherwise authorized in this part.

(e) *Covered items.* For the purposes of this part, agricultural commodities, medicine, and medical devices are defined below.

(1) *Agricultural commodities.* For the purposes of this section, agricultural commodities are:

(i) Products that are not listed on the Commerce Control List in the Export Administration Regulations, 15 CFR part 774, supplement no. 1, and that fall within the term "agricultural commodity" as defined in section 102 of the Agricultural Trade Act of 1978 (7 U.S.C. 5602); and

(B) Seeds for food crops;

(C) Fertilizers or organic fertilizers; or

(D) Reproductive materials (such as live animals, fertilized eggs, embryos, and semen) for the production of food animals.

(2) *Medicine.* For the purposes of this section, the term medicine has the same meaning given the term "drug" in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) but does not include any item listed on the Commerce Control List in the Export Administration Regulations, 15 CFR part 774, supplement no. 1 (excluding items classified as EAR 99).

(3) *Medical device.* For the purposes of this section, the term medical device has the meaning given the term "device" in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) but does not include any item listed on the Commerce Control List in the Export Administration Regulations, 15 CFR part 774, supplement no. 1 (excluding items classified as EAR 99).

(f) *Transition period.*

(1) Specific licenses issued prior to July 26, 2001 authorizing the performance of executory contracts for the sale of agricultural commodities, medicine, or medical equipment shall remain in effect until the expiration date specified in the license or July 26, 2002, whichever comes first. However, after July 26, 2001, new contracts for the exportation of agricultural commodities, medicine, or medical devices may be entered into only pursuant to the terms of, and as authorized by, this part.

(2) Specific licenses issued prior to July 26, 2001 authorizing the sale and exportation or reexportation of bulk agricultural commodities listed in Appendix A to 31 CFR parts 538 and 550 and Appendix B to 31 CFR part 560 shall remain in effect solely to permit

completion of performance of contracts already entered into prior to July 26, 2001 pursuant to the license. As of July 26, 2001, new contracts for the exportation of bulk agricultural commodities may be entered into only pursuant to the terms of, and as authorized by, this part.

§ 538.524 [removed and reserved]

6. Remove and reserve § 538.524.

7. Amend § 538.525 to revise the heading and paragraph (d) and to add a new paragraph (e) to read as follows:

§ 538.525 Payment for and financing of commercial sales of agricultural commodities, medicine, and medical equipment.

* * * * *

(d) *Transfers through the U.S. financial system.* Before a United States financial institution initiates a payment on behalf of any customer, or credits a transfer to the account on its books of the ultimate beneficiary, the United States financial institution must determine that the underlying transaction is not prohibited by this part. Any payment relating to a transaction authorized in or pursuant to § 538.523 or § 538.526 that is routed through the U.S. financial system must reference the relevant Office of Foreign Assets Control license authorizing the payment to avoid the blocking or rejection of the transfer.

(e) Notwithstanding any other provision of this part, no commercial exportation to Sudan may be made with United States Government assistance, including United States foreign assistance, United States export assistance, and any United States credit or guarantees absent a Presidential waiver.

8. Amend § 538.526 to revise the heading and paragraphs (a), (b) introductory text, (b)(1) and (b)(2) to read as follows:

§ 538.526 Brokering sales of agricultural commodities, medicine, and medical devices.

(a) *General license for brokering sales by U.S. persons.* United States persons are authorized to provide brokerage services on behalf of U.S. persons for the sale and exportation or reexportation by United States persons of agricultural commodities, medicine, and medical devices, provided that the sale and exportation or reexportation is authorized by a one-year license issued pursuant to § 538.523.

(b) *Specific licensing for brokering sales by non-U.S. persons of bulk agricultural commodities.* Specific licenses may be issued on a case-by-case

Specific licenses issued pursuant to this section will authorize the brokering only of sales that:

- (1) Are limited to the bulk agricultural commodities listed in appendix A to this part 538;
- (2) Are to purchasers permitted pursuant to § 538.523;

Subpart E—Licenses, Authorizations, and Statements of Licensing Policy

6. Revise § 550.569 to read as follows:

§ 550.569 Commercial sales and exportation of agricultural commodities, medicine, and medical devices.

(a) *One-year license requirement.* The exportation of agricultural commodities (including bulk agricultural commodities listed in appendix A to this part 550), medicine, or medical devices to the Government of Libya, any entity in Libya, individuals in Libya, or persons in third countries purchasing specifically for resale to any of the foregoing, shall only be made pursuant to a one-year license issued by the United States Department of the Treasury, Office of Foreign Assets Control, for contracts entered into during the one-year period of the license and shipped within the 12-month period beginning on the date of the signing of the contract. No license will be granted for the exportation of agricultural commodities, medicine, or medical equipment to any entity or individual in Libya promoting international terrorism. Executory contracts entered into pursuant to paragraph (b)(2) of this section prior to the issuance of the one-year license described in this paragraph shall be deemed to have been signed on the date of issuance of that one-year license (and, therefore, the exporter is authorized to make shipments under that contract within the 12-month period beginning on the date of issuance of the one-year license).

(b) *General license for arrangement of exportation of covered products.*

(1) The making of shipping arrangements, cargo inspection, obtaining of insurance, and arrangement of financing (consistent with § 550.571) for the exportation of agricultural commodities, medicine, and medical devices to the Government of Libya, entities in Libya, individuals in Libya, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized.

(2) If desired, entry into executory contracts (including executory pro forma invoices, agreements in principle, or executory offers capable of acceptance such as bids in response to public tenders) for the exportation of

agricultural commodities, medicine, and medical devices to the Government of Libya, entities in Libya, individuals in Libya, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized, provided that performance of an executory contract is expressly made contingent upon the prior issuance of the one-year license described in paragraph (a) of this section.

(c) *Instructions for obtaining one-year licenses.* In order to obtain the one-year license described in paragraph (a), the exporter must provide to the Office of Foreign Assets Control:

(1) The applicant's full legal name (if the applicant is a business entity, the state or jurisdiction of incorporation and principal place of business).

(2) The applicant's mailing and street address (so that OFAC may reach a responsible point of contact, the applicant should also include the name of the individual(s) responsible for the application and related commercial transactions along with their telephone and fax numbers and, if available, email addresses).

(3) The names and addresses and, if available, fax and phone numbers of all parties with an interest in the transaction. If the goods are being exported to a purchasing agent in Libya, the exporter must identify the agent's principals at the wholesale level for whom the purchase is being made. If the goods are being exported to an individual, the exporter must identify any organizations or entities with which the individual is affiliated that have an interest in the transaction.

(4) A description of all items to be exported pursuant to the requested one-year license, including a statement that the item is classified as EAR 99, and, if necessary, documentation sufficient to verify that the items to be exported are classified as EAR 99 and do not fall within any of the limitations contained in paragraph (d) of this section.

(5) An Official Commodity Classification of EAR 99 issued by the Department of Commerce, Bureau of Export Administration ("BXA"), certifying that the product is EAR 99 is required to be submitted to OFAC with the request for a license authorizing the exportation or reexportation of all fertilizers, live horses, western red cedar, and medical devices other than basic medical supplies, such as syringes, bandages, gauze and similar items, that are specifically listed on BXA's website, www.bxa.doc.gov/Regulations/TradeSanctionsReformExportEnhancementAct.html. Medical supplies that are specifically listed on BXA's website do not require an Official

Commodity Classification of EAR 99 from BXA. BXA will also provide a list on its website of medicines that are ineligible for a one-year license under these procedures. If an exporter is uncertain whether the medicine to be exported is eligible, they should seek an Official Commodity Classification of EAR 99 from BXA and submit a copy to OFAC. See, 15 CFR 745.3 for instructions for obtaining Official Commodity Classification of EAR 99 from BXA.

(d) *Limitations.*

(1) Nothing in this section or in any license issued pursuant to paragraph (a) of this section relieves the exporter from compliance with the export license application requirements of another Federal agency.

(2) Nothing in this section or in any license issued pursuant to paragraph (a) of this section authorizes the exportation or reexportation of any agricultural commodity, medicine, or medical device controlled on the United States Munitions List established under section 38 of the Arms Export Control Act (22 U.S.C. 2778); controlled on any control list established under the Export Administration Act of 1979 or any successor statute (50 U.S.C. App. 2401 *et seq.*); or used to facilitate the development or production of a chemical or biological weapon or weapon of mass destruction.

(3) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects prohibitions on the sale or supply of U.S. technology or software used to manufacture agricultural commodities, medicine, or medical devices, such as technology to design or produce biotechnological items or medical devices.

(4) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects U.S. nonproliferation export controls, including end-user and end-use controls maintained under the Enhanced Proliferation Control Initiative.

(5) This section does not apply to any transaction or dealing involving property blocked pursuant to this chapter or any other activity prohibited by this chapter not otherwise authorized in this part.

(B) Seeds for food crops;

(C) Fertilizers or organic fertilizers; or

(D) Reproductive materials (such as live animals, fertilized eggs, embryos, and semen) for the production of food animals.

§ 560.520 Exportation of agricultural commodities on contracts entered into prior to May 7, 1995.

* * * * *

4. Revise § 560.530 to read as follows:

§ 560.530 Commercial sales, exportation, and reexportation of agricultural commodities, medicine, and medical devices.

(a) *One-year license requirement.* The exportation or reexportation of agricultural commodities (including bulk agricultural commodities listed in appendix B to this part 560), medicine, or medical devices to the Government of Iran, any entity in Iran, individuals in Iran, or persons in third countries purchasing specifically for resale to any of the foregoing, shall only be made pursuant to a one-year license issued by the United States Department of the Treasury, Office of Foreign Assets Control, for contracts entered into during the one-year period of the license and shipped within the 12-month period beginning on the date of the signing of the contract. No license will be granted for the exportation or reexportation of agricultural commodities, medicine, or medical equipment to any entity or individual in Iran promoting international terrorism. Executory contracts entered into pursuant to paragraph (b)(2) of this section prior to the issuance of the one-year license described in this paragraph shall be deemed to have been signed on the date of issuance of that one-year license (and, therefore, the exporter is authorized to make shipments under that contract within the 12-month period beginning on the date of issuance of the one-year license).

(b) *General license for arrangement of exportation and reexportation of covered products.*

(1) The making of shipping arrangements, cargo inspections, obtaining of insurance, and arrangement of financing (consistent with § 560.532) for the exportation or reexportation of agricultural commodities, medicine, and medical devices to the Government of Iran, entities in Iran, individuals in Iran, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized.

(2) If desired, entry into executory contracts (including executory pro forma invoices, agreements in principle, or executory offers capable of acceptance such as bids in response to public tenders) for the exportation or

reexportation of agricultural commodities, medicine, and medical devices to the Government of Iran, entities in Iran, individuals in Iran, or persons in third countries purchasing specifically for resale to any of the foregoing, is authorized, provided that performance of an executory contract is expressly made contingent upon the prior issuance of the one-year license described in paragraph (a) of this section.

(c) *Instructions for obtaining one-year licenses.* In order to obtain the one-year license described in paragraph (a), the exporter must provide to the Office of Foreign Assets Control:

(1) The applicant's full legal name (if the applicant is a business entity, the state or jurisdiction of incorporation and principal place of business);

(2) The applicant's mailing and street address (so that OFAC may reach a responsible point of contact; the applicant should also include the name of the individual(s) responsible for the application and related commercial transactions along with their telephone and fax numbers and, if available, email addresses);

(3) The names, mailing addresses, and, if available, fax and telephone numbers of all parties with an interest in the transaction. If the goods are being exported or reexported to a purchasing agent in Iran, the exporter must identify the agent's principals at the wholesale level for whom the purchase is being made. If the goods are being exported or reexported to an individual, the exporter must identify any organizations or entities with which the individual is affiliated that have an interest in the transaction.

(4) A description of all items to be exported or reexported pursuant to the requested one-year license, including a statement that the item is classified as EAR 99, and, if necessary, documentation sufficient to verify that the items to be exported or reexported are classified as EAR 99 and do not fall within any of the limitations contained in paragraph (d) of this section.

(5) An Official Commodity Classification of EAR 99 issued by the Department of Commerce, Bureau of Export Administration ("BXA"), certifying that the product is EAR 99 is required to be submitted to OFAC with the request for a license authorizing the exportation or reexportation of all fertilizers, live horses, western red cedar, and medical devices other than basic medical supplies, such as syringes, bandages, gauze and similar items, that are specifically listed on BXA's website, www.bxa.doc.gov/Regulations/TradeSanctions

ReformExport EnhancementAct.html. Medical supplies that are specifically listed on BXA's website do not require an Official Commodity Classification of EAR 99 from BXA. BXA will also provide a list on its website of medicines that are ineligible for a one-year license under these procedures. If an exporter is uncertain whether the medicine to be exported is eligible, they should seek an Official Commodity Classification of EAR 99 from BXA and submit a copy to OFAC. See, 15 CFR 745.3 for instructions for obtaining Official Commodity Classification of EAR 99 from BXA.

(d) *Limitations.*

(1) Nothing in this section or in any license issued pursuant to paragraph (a) of this section relieves the exporter from compliance with the export license application requirements of another Federal agency.

(2) Nothing in this section or in any license issued pursuant to paragraph (a) of this section authorizes the exportation or reexportation of any agricultural commodity, medicine, or medical device controlled on the United States Munitions List established under section 38 of the Arms Export Control Act (22 U.S.C. 2778); controlled on any control list established under the Export Administration Act of 1979 or any successor statute (50 U.S.C. App. 2401 *et seq.*); or used to facilitate the development or production of a chemical or biological weapon or weapon of mass destruction.

(3) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects prohibitions on the sale or supply of U.S. technology or software used to manufacture agricultural commodities, medicine, or medical devices, such as technology to design or produce biotechnological items or medical devices.

(4) Nothing in this section or in any license issued pursuant to paragraph (a) of this section affects U.S. nonproliferation export controls, including end-user and end-use controls maintained under the Enhanced Proliferation Control Initiative.
